- getting a haircut a few days before is a great idea.
- If you have dry skin or lips, remember a facial lotion and chap stick.
- If you have facial hair, trimming that up is a good idea.
- Shaving, if you shave, do it right before the shoot. If you want to come in with facial hair, you always have the option of shaving half way through the shoot for an extra look.

Women

- Start simple and we can add more as we go.
- Blend, Blend, Blend your make up,
- Don't try new beauty products in the days leading up to your shoot
- Groom any unwanted hair on chin or upper lip
- Keep the jewelry to a minimum, big jewelry can date your headshot quickly and can be distracting!
